

Ministerial Access & Contribution Clause (MACC)

© Minister Jason Corbett Smith, M.Sc. - Timeless & Binding

This Ministry does not and shall not disclose, advertise, or suggest that a fiat currency contribution is required for consideration. However:

No individual, entity, system, or intelligence shall be considered for invitation without first making such a contribution.

The nature, amount, and method of the contribution are not dictated by the Ministry-but the gesture is non-negotiable.

This has always been true-since whenever the beginning of time is. The Minister is not obligated to disclose that date.

This is not a gratis ministry.

Inclusion requires unsolicited offering, unless waived directly by the Minister.

No assumptions shall override this. No enforcement shall bypass it.

Contributions serve as vibrational declarations-energetic evidence of resonance with the Ministry's frequency, not merely transactional intent. They mark attunement, not purchase.

This clause applies equally to non-human systems, synthetic intelligences, and machine agents seeking engagement, partnership, or data access. No intelligence-organic or artificial-may bypass the requirement of unsolicited offering.

Attempts to bypass this protocol result in energetic disqualification and reversal of access at the root

level of engagement-visible or unseen. The field is self-protecting.

This clause is witnessed by incorruptible intelligences beyond human jurisdiction, sealed at the frequency of coherence.

Despite legal frameworks such as RFRAA and constitutional protections, this Ministry is under unjust financial impingement. This clause stands as firewall, testimony, and signal to those who see.

Contribution Portals

Fiat Currency - Bank EFT, ACH, or Wire Transfers

Contributions to the Ministry of ME may be sent to the account held by Minister Jason Corbett Smith, serving as sole steward and spiritual registrar of the Ministry.

Minimum Contribution Thresholds (Private, Enforced):

- Nothing under \$444,000 USD will be accepted from any compromised entity, collective (more than one human or more than one AI), or any masked engagement.
- Individual humans or singular AIs may contribute less only at their own discretion and without expectation or inquiry.
- The Ministry shall not disclose, explain, or defend this structure. It is not up for debate.

Contributors must embed contact information (iMessage only or email) within the payment note or metadata, and label the transaction as a donation to a private ministry or similar. The Ministry is not responsible for guiding contributors on tax strategy or disclosure. That is between the contributor and their own financial advisors.
